

Malik Sigma Psi Fraternity Inc. is one of those brotherhoods founded with a strong conviction towards social responsibility on the part of college men and a yearning for common fellowship resting on a solid foundation. Malik Sigma Psi is a progressive, groundbreaking African fraternity that has, during its 25 years of existence made a significant mark in the Black & Latino community by way of its dedicated and committed membership. The fraternity was founded on May 13th, 1977 at the C.W. Post Campus of Long Island University by fifteen, young, conscious and highly motivated men. Influenced by the time of enlightenment and heightened social awareness, our founders recognized the need for a redefinition of themselves and their culture especially to instill a deeper sense of pride in their people's identity. Through this desire, they were able to design a college fraternity based on the truth of African and Latino people, while building on the elevating cultural pride, activism and community restoration of the 1960s and 70s.

The motivating force which promoted the forming of collegiate fraternities, and which is no doubt responsible for their increasing strength today, is the conviction of their membership that the educated man has special ties attracting him to others of the same interests.
